

Intake Procedure

Students will be selected on the basis of past academic performance as revealed in the application form.

Why a Diploma in Quantitative Economics?

The diploma is designed towards addressing the gaps in the Economics taught in various institutes where more of theoretical knowledge is imparted and less or no quantitative skills are taught. The diploma intends to equip the students with better analytical skills which is expected to help the students get better admission opportunities in India and abroad, with respect to post-graduate programmes: Masters in Economics, MBA, Banking & Finance, etc.

The diploma looks at providing useful inputs to students who take a drop year to fill in the gaps and students who are looking for meaningful programmes after college hours in the city of Pune

What is the course content like?

The basic focus of the SSE course content is to train students to apply economic concepts in real life and other inter-disciplinary specializations. The curriculum is designed keeping the employability of the candidate in sectors such as public and private enterprises, banking and financial services, government, consulting, academia and NGOs in India and abroad.

What are the instruction styles?

Other than the standard discourse method, case study and colloquium oriented methods will also be employed as pedagogical methodology. The aim is to create a dynamic learning environment and enhancing the analytical and application capability of the students.
